

ASSURE EWE - SUBSIDISED CHLAMYDIA SEROLOGY SUBMISSION FORM

Between 1st of January until 30th September. For use in flocks of 50 or more breeding ewes. Ceva Animal Health will fund single serology testing of up to 6 ewes in flocks of 50+ breeding ewes, where abortion has been identified.

- Ewes should be blood sampled within 3 months of lambing due date
- Please sample using red top (serum) vacutainers (one per animal)
- All fields must be completed to avoid delayed processing of your samples
- All information provided on this form will be treated as strictly confidential by Ceva Animal Health Ltd
- Information may also be used anonymously to complete disease incidence statistics
- By taking part in this service it is understood that you and your client agree to further communication with Ceva*
